

Jairo Alejandro Velosa Bolaños

Full-Stack Web Developer

I am Jairo Alejandro Velosa Bolaños, a passionate Full-Stack developer with experience in React JS, Node JS, and Redux. I specialize in challenging projects where I can create innovative solutions for user needs. Let's collaborate on your project and make a significant impact. I use technologies such as React JS, Redux, JavaScript, Axios, Bcrypt, Jest, Express JS, Sequelize, HTML5, and CSS to bring my projects to life.

Education

2023
Full Stack Developer
Academlo

2023
B2 - C1 English
ABA ENGLISH

Skills

- React JS
- Redux
- Bcrypt
- JavaScript
- Node JS
- Axios
- Express JS
- SQL
- HTML5
- CSS
- Jest
- supertest

Experience

2023-Junio

○ Ecommerce (proyecto-Academlo)

A complete application was created for an online store of tech products, using Node.js for the database and React JS for the user interface, along with Redux for enhanced scalability. Notable features include the implementation of a login system and the use of tools like Bootstrap for an attractive and user-friendly interface

2023-agosto

○ Music (proyecto-Academlo)

I developed a web application that allows users to organize their favorite music, with options to manage songs, albums, and artists. I used Jest on the backend for quality testing and Redux on the frontend to ensure scalability and a smooth user experience.

2022 - 2023

○ Shoppe-Disputas

I worked at Shoppe Mexico resolving customer disputes, making important decisions regarding returns and purchases. My role involved assessing evidence to make fair decisions. Additionally, I led a team of 10 people and achieved a significant improvement in efficiency, maintaining high standards of decision-making and customer service.
